

# Emma Petro

*Hardworking collaborative graduate student aiming to continue her journey and development towards a career in healthcare.*

## About

It is a pleasure to meet you, I'm Emma Petro! I am a current graduate student with my Bachelors Degree in Kinesiology and Health Studies from the University of Windsor.

Personally, I am very passionate about healthcare and I am looking for opportunities to learn and excel in a career within healthcare. For the last 4 years I have not only been studying in a relevant field, I have also been working and volunteering within healthcare.

During the pandemic I became a COVID-19 screener, learning best practices towards disease prevention. After my temporary position in screening ended, I volunteered and completed an internship with a Physiotherapist to gain hands on experience with ABI, stroke, heart attack, amputation, and geriatric patients. I have been working in Environmental Services to continue my hospital hygiene practices such as PPE compliance and disease prevention within the workplace.

With the experience that I currently possess, I am seeking ways to expand my knowledge into different areas of healthcare, so that I can diversify my understanding of the interplay between different areas of healthcare as they merge together to deliver the best patient centered care possible.

## Current Work

### 2023 - Present

Hotel Dieu Grace Healthcare | 1453 Prince Rd. Windsor, ON

### Environmental Service Worker

- Disinfect and clean designated areas of the hospital.
- Work on a team requiring good communication skills.
- Work independently for the majority of shifts.
- Coordinate with other staff on the unit.

## Volunteer Experience

### Physiotherapy Volunteer

- Transport patients to/from their rooms and physiotherapy.
- Assist physiotherapists with tasks under their instruction.
- Disinfect workspace and equipment.

### Ergonomics Lab Volunteer

- Convert motion capture data files into usable 3D modelling files.
- Edit 3D modelling files manually to insert digital objects.

### Heart Breaker Challenge Volunteer

- Managed the start corral by verifying the event participant's correct wave start time.
- Assisted in obstacle course set up and take down.
- Assisted in event clean up.

# Work History

# Additional Skills

## 2023 - Present

Hotel Dieu Grace Healthcare | 1453 Prince Rd. Windsor, ON

### Environmental Service Worker

- Disinfect and clean designated areas of the hospital.
- Work on a team requiring good communication skills.
- Work independently for the majority of shifts.
- Coordinate with other staff on the unit.

## 2021 - 2023

Hotel Dieu Grace Healthcare | 1453 Prince Rd. Windsor, ON

### COVID-19 Screener

- Explained COVID-19 guidelines and restrictions to the public.
- Greeted people in a pleasant manner and assisted them with any questions they had.
- Experience in handling unpleasant visitors and difficult situations.
- Worked on a team that required good communication skills.
- Worked in part with other departments that require good communication skills.
- Accurate file keeping and documentation skills.
- Answer incoming calls.

## 2020

Riberdy Farms | 13049 Riverside Dr E, Windsor, ON

### Cashier + Farmer

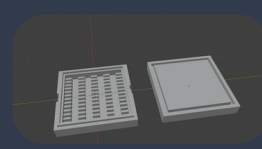

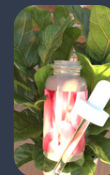

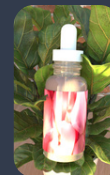

- Retail sales.
- Restocked and organized produce.
- Created a price tracking sheet to monitor price changes in produce to increase the efficiency and organization of the business.
- COVID-19 policy enforcement.
- Endured long hours of physical labor including:
  - Standing and walking for extended periods of time.
  - Bending / reaching repeatedly in order to harvest crops.
  - Lifting and pushing heavy objects repeatedly.

## Blender 3D | CAD

### 3D Modelling

3D modelling has a multitude of purposes. From VFX, cinematics, videogame development, interior design, and even engineering 3D printable objects, 3D modelling is a versatile skill.

Currently, I have used Blender 3D to render digital scenes and objects for art purposes, and CAD for designing and creating lab equipment for my former musculoskeletal physiology professor, including a 2 in one slide drying rack and storage box, as well as custom test tube stands.

## Duolingo

### Language Practice - French + Japanese

Currently I am approaching a 400 day long streak of Duolingo through French and Japanese (practicing at least once per day). Practicing these languages will not only give me duality with languages in Canadian fields, it also gives me many advantages across Europe as well.
